25th February 2025

To Whom It May Concern,

Industrial Training From University of Technology Sarawak (UTS)

I'm Gary Loh, the Industrial training coordinator for School of Computing and Creative Media, UTS, Sibu, Sarawak. On behalf of the University, I wish to express our gratitude to you and your company for the possibilities of recruiting our next batch of Industrial Training students for 6 months (24 weeks).

For your information, this is a six-month industrial training which will commence in August 2025 until January 2026. It is a requisite for the award of Bachelor of Computer Science (Hons).

Upon completion of the industrial training, UTS will request the company industrial supervisor (supervisor that assigned to train the attached student) to give marks on the student, which UTS will provide the template for the successful completion of training. Besides that, a lecturer will be assigned to visit or online meet with the student 2 weeks before his internship end and we will inform you before we make the visit or online meet.

Do contact me through email (gary@uts.edu.my) or mobile (012 - 560 8643) if there are any queries.

Thank you.

Your Sincerely,

Gary Loh, PhD
Industrial Training Coordinator
